Aesthetics and Problems of Education Ralph Alexander Smith, 1971 Ideas About Art Kathleen K. Desmond, 2011-03-16
Ideas About Art is an intelligent accessible introductory text for students interested in learning how to think about aesthetics. It uses stories drawn from the experiences of individuals involved in the arts as a means of exposing readers to the philosophies, theories, and arguments that shape and drive visual art. An accessible story-driven introduction to aesthetic theory and philosophy. Prompts readers to develop independent ideas about aesthetics; this is a guide on how to think, not what to think. Includes discussions of non-western, contemporary, and discipline-specific theories. Examines a range of art-based dilemmas across a wide variety of disciplines from art and design and law to visual and museum studies. **The A to Z of Aesthetics** Dabney Townsend, 2010-04-01
Aesthetics is not a factual discipline; there are no aesthetic facts. The word itself is derived from the Greek word for feeling, and the discipline arises because of the need to find a place for the passions within epistemology, the branch of philosophy that investigates our beliefs. Aesthetics is more than just the study of beauty; it is a study of that which appeals to our senses, most often in connection with the classification, analysis, appreciation, and understanding of art. The A to Z of Aesthetics covers its history from Classical Greece to the present, including entries on non-western aesthetics. The book contains a chronology, an introductory essay, a bibliography, and hundreds of cross-referenced dictionary entries on the main concepts, terminology, important persons, philosophers, critics, and artists, and the rules and criteria we apply in making judgments on art. By providing concise information on aesthetics, this dictionary is not only accessible to students but it provides details and facts to specialists in the field. Research in Education, 1974
