Biological/biomedical Applications of Liquid Chromatography II Gerald L. Hawk, 1979 *CRC Handbook of Chromatography* Ram N. Gupta, 2018-04-17 These volumes provide a reference source of different gas chromatographic liquid chromatographic or thin layer chromatographic techniques for the qualitative determination of various therapeutic agents including antibiotics vitamins and hormones drugs of abuse in body fluids dosage forms or food stuffs Over 5000 publications were reviewed to prepare tables of chromatographic data for 800 compounds arranged alphabetically by generic drug name or by drug groups A detailed summary of the extraction procedure described in each publication included in the table of a particular drug is also provided This easy to read handbook is useful for selecting an appropriate chromatographic procedure for the determination of a given compound according to the available facilities **Liquid Chromatography of Oligomers** Constantin V. Uglea, 1996-06-06 Details the principles and mechanisms of and the equipment and optimal working conditions for the liquid chromatographic separation of well defined oligomeric species and fraction with narrow molecular weight distribution The work provides a complete description of the applications and possible performance of liquid chromatography in the field of oligomer separation **Current Catalog** National Library of Medicine (U.S.), 1979 Includes subject section name section and 1968 1970 technical reports *Separation of Individual Compound Classes*, 1988-11-01 Separation of Individual Compound Classes National Library of Medicine Current Catalog National Library of Medicine (U.S.), *Current Catalog*, 1965 First multi year cumulation covers six years 1965 70 **Analytical and Chromatographic Techniques in Radiopharmaceutical Chemistry** Donald M. Wieland, Michael C. Tobes, Thomas J. Mangner, 2012-12-06 In 1906 Michael T Sweet first developed the chromatographic method by using an adsorbant to separate pigments Since that time the technological advances in TLC and HPLC have brought about new definitions of purity in parallel with the advances Radiopharmaceutical chemistry is especially dependent on the chromatographic technique because of the relatively small amount of material in most radiopharmaceuticals often so small that the usual physical methods of analytical chemistry cannot be used As a result this collection of papers represents the key to successful radiopharmaceutical development by setting the standard for the present of radiochemical purity definition William C Eckelman Ph D Diagnostics Associate Director The Squibb Institute for Medical Research New Brunswick New Jersey Preface The chapters herein are updated and expanded versions of presentations that the authors made at a symposium held on June 4 1984 in Los Angeles California under the sponsorship of the Radiopharmaceutical Science Council of the Society of Nuclear Medicine All manuscripts were refereed The intent of the symposium organizers was to enlist participants who work on a day to day basis with the analytical and chromatographic techniques to be discussed at the symposium We feel confident that this distillation of hands on experience will be of value to graduate students as well as experienced researchers in radiopharmaceutical chemistry and related fields which use radiotracer methodology Preparative and Production Scale

Chromatography G. Ganetsos, P.E. Barker, 2019-11-11 Describes the latest developments in the scaling up and application of chromatographic operations and demonstrates that production scale chromatography is a powerful and invaluable separation process The book covers every important process design and reveals actual immediately applicable techniques and is designed to appeal to design chemical biochemical and research and development engineers process development managers bioprocess technologists analytical and clinical chemists and biochemists pharmacists and upper level undergraduate graduate and continuing education students in these disciplines Monographic Series Library of Congress, 1982
